# HexTenna

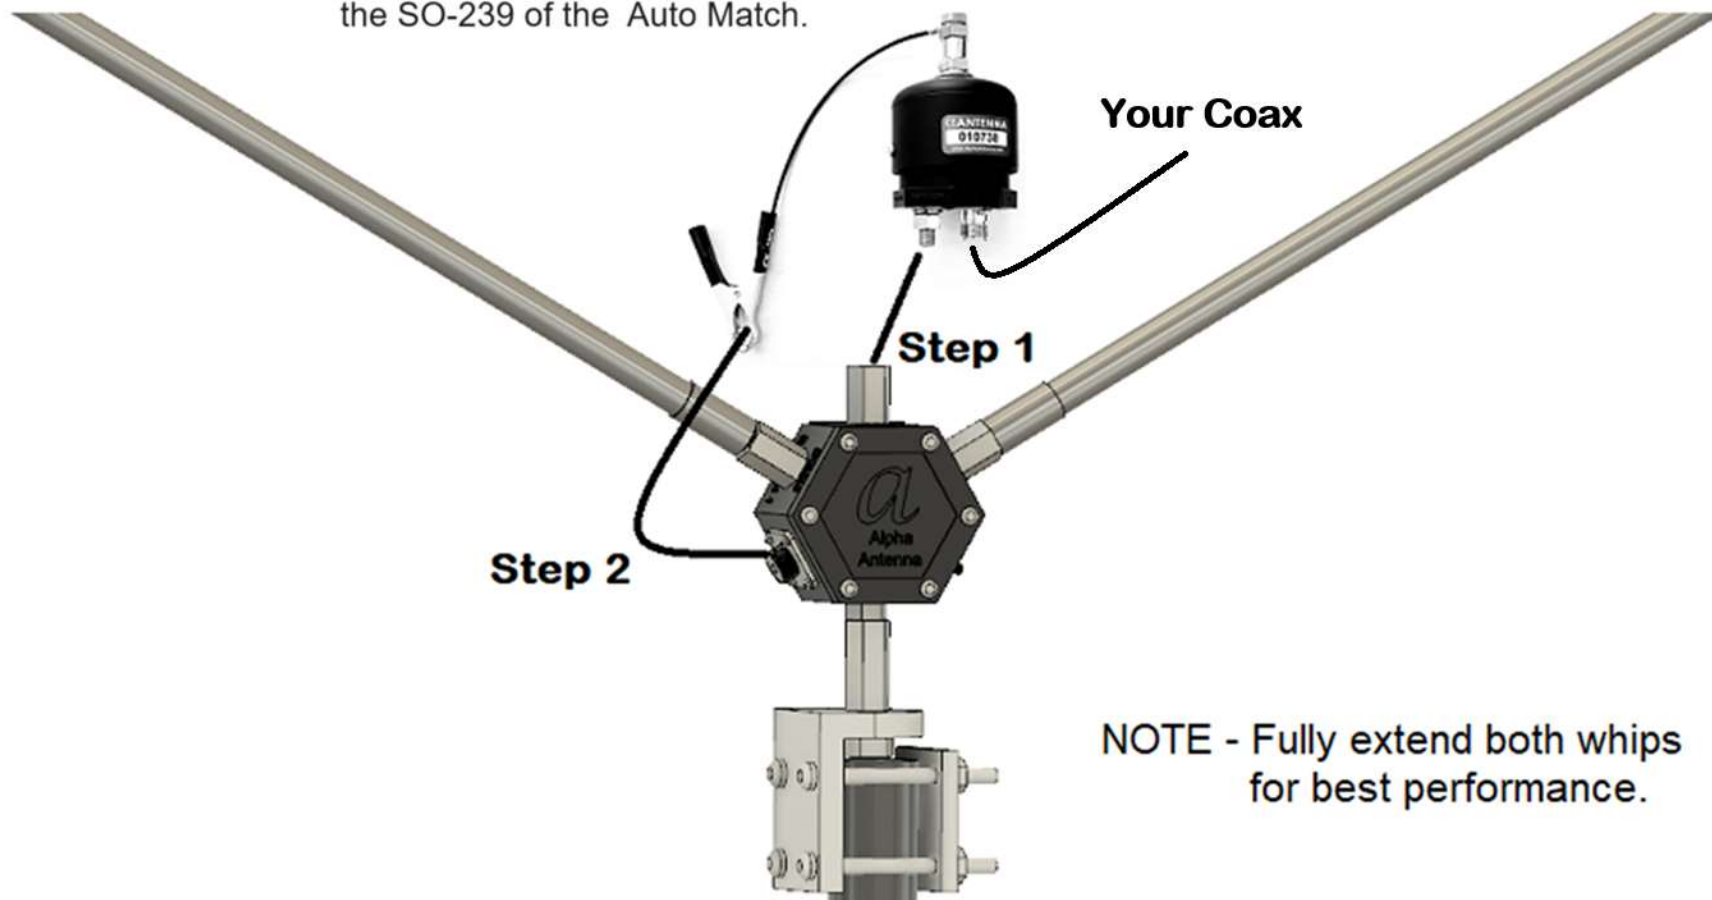

## Auto Match for 10-80 Meters\*

Install the optional Auto Match for touch free tuning of the HexTenna.

**\*Can be used with tuner if installed over a poor ground or near objects.**

**Installation:** Step 1, Screw the Auto Match into the hex nut labeled Vertical.

Step 2, Place the Clamp on the threads of the SO-239 of the HexTenna, then attach your coax to the SO-239 of the Auto Match.

NOTE - Fully extend both whips  
for best performance.
