

RM-705

RIG MOUNT FOR THE ICOM AL-705 ANTENNA

DESCRIPTION

The Rig Mount (RM-705), which screws on top of tripod's male 1/4 20 thread, is for mounting the ICOM IC-705 transceiver and AL-705 magnetic loop antenna on that tripod.

Assembly

AL-705 Antenna

1) An optional accessory, the TM-705 (Tripod Mount for the AL-705 antenna) can install onto the bottom of the match box, which would then enable you to install the AL-705 antenna onto the RM-705.

RM-705 Rig Mount

- 1) Screw the RM-705 on top of a tripod's 1 / 4 20 thread.
- 2) Screw the IC-705 transceiver into the center mounting section of the RM-705.
